April 2024

BoPEx24 Exhibitor Registrations open!

If you did not receive your email please get in touch 😊

We had a great turnout of club members to indulge in some Lego Games brought in by club members. Lego Football/Soccer was a huge hit as well as the Ninjago board game and several Hogwarts Chess Sets. Frog Rush was a popular game choice (I've certainly got a new respect for Storks!).

We Need You!

**Special Notice re upcoming BoPEx Show June 21 and 22 - WE NEED YOU!
(and/or your Partners/Parents/Supporters!)**

Club Volunteers are needed for the weekend show to make it a success - Not displaying? Be a part of it anyway! Please let us know if you are available for four hour shifts 9am - 1pm or 1pm - 5pm either or both days Saturday and Sunday. Jobs are: Door ticket sales, Ticket takers (entry), Stampers (exit), Club Sales, Brick Pit Supervision and Floaters. We are also looking for assistance from midday Friday to help set up the tablecloths and display space Please get in touch, without helpers we cannot make this work.

Next Clubday May 6 1pm Baden Powell Event Centre 46 Harrisfield Drive.

Gypsy Caravans from April's Monthly Challenge - more pics on Fb

Monthly Challenge - Heroes Vs Villains!

The Lego challenge last month was to build a Lego Gypsy Caravan/Truck/Bus/Other that reflects you! Thanks to all members who brought along their builds and shared them with the group (after voting). Club members left the hall while the builds were unveiled and then voted with their bricks for their favorite. The Winner was Jesse with his Apocalypse Era Gypsy caravan containing the family, clad with salvaged road/street signs and powered by dinosaurs (why not?). Second place was Caleb with custom vehicle towing a Stage drama and Third place was Vincent with Steam/Punk Madmax themed all terrain, all wheel drive. Special honors to Frazer with his transforming living quarters powered by solar and he has chosen the next monthly challenge: HEROES Vs VILLAINS!

Thank you to those who shared their build projects - Nate for demonstrating his huge fairground rollercoasters (two of the five that he has!), Stuart for showcasing his upscaled Luna Landing MOC featuring functional docking hatch and more authentic helmet and backpack wearing minifigure, Jenny for sharing some of her Elves collection (she has obtained 36 of the 45 limited edition sets which were discontinued in 2019) to form part of her colorful BoPEX MOC featuring dragons, animals, plants and goblins, as well as a crystal mountain with hatchery, Daniel with his rebrickable "Hulk-Buster" - a much more realistic replica of the movie character than the official Lego set - also to form part of his BoPEX display of Mechs and Robots, and Jim with his Steam Punk Contraption with powerful torque motor demonstrating all the moving mechanisms available in Lego.
